Prep Blog Review: The Handyman's Edition

If you enjoy DIY projects and making things with your own hands, than you'll love this week's Prep Blog Review.

We've gathered 5 awesome projects that will keep you busy and will provide great satisfaction and help once they're done.

1. How to Build a Wood-fired Earthen Oven (A Low-Cost Project)

"Reducing the amount of technology you depend on is beneficial for your resilience plus both for your health and that of the environment. A lot of us love to spend time in nature so a way to cook in nature will surely help enjoy the time spent there.

Wood-fired earthen ovens are easily documented all the way back the ancient Romans. Likewise, they

are easily documented in archaeological evidence and first-hand accounts from the 18th Century. In this video you'll see how easy it is to build one."

2. Building Our Smokehouse - An American Homestead

"Our smokehouse is finally complete. We have lots of plans to show you how we are going to use this cold smoker through the winter for a number of tasks including to preserve and cure meats."
