

[VIDEO] Pocket Survival Kit (PSK) – Cordage Options

In a survival situation, your entire life could depend on something as simple as a short length of rope. No rope to tie a simple tarp to a tree for a basic shelter? Then you're sleeping in the elements. Not a strand to tie a hook onto for fishing? You might be going hungry some more.

Rope and cordage are without a doubt one of the most versatile things you could have with you in a survival situation which is why it makes sense to carry multiple types in your Pocket Survival Kit (PSK) and Cache Valley Prepper's going to show you exactly what you need.
