2. Bug in Security: What’s Your Plan?

"You are sitting in your favorite recliner after dinner at the end of a day of work that stressed you out mentally and wore you out physically.

All you need is a quickie thirty minute nap to revive you for some work you need to finish in the yard. Before you doze off, you click on the nightly news only be informed that the SHTF has finally hit.

A riot has broken out in a nearby shopping center after a mob swamped a big box store for some electronics sale. Two people were shot and several were injured from a crowd stampede.

Now the rioters have moved to burning cars in the parking lot and are moving down the street breaking into other businesses, looting, and setting them on fire."

3. What To Do If You Think Someone Is Following You While Walking

“If you are walking on the street (or anywhere) and you ‘get that feeling’ that someone is following you, or if you know that there really is someone (or more than one) behind you and your suspicion is that they are following you,

here’s what you should do...

Your situational awareness has kicked in (knowing what’s going on around you), but you’re not sure about the people behind you as you are walking to your car, walking on the street, or walking ‘anywhere else’. What should you do?”

4. How You Are Tracked

“Remember the days when you only had to worry if someone was physically tailing you? You could use some creative evasion to disappear into a crowd or around a corner. Well those days are over. Here are a few ways on how you are tracked.

How You Are Tracked

In today’s world of modern technology, you have to take extreme measures to hide and to remain anonymous. The Nazi’s and Secret police would have loved to have had this type of technological tracking to keep it citizens in line. Here in the USA, we even pay the bills for our collars (cell phone, internet access), which they use against us. What does it take to hide? First you need to know how you are tracked, then you might be able to do something about it.”
