

SHTF! Do You Have The Right Knife?

A wise man once said that the best solution is the one that fits you...

Some time ago, the guys from [Knife Planet](#) asked us to take part in a expert roundup on the best survival knife. It was a tough choice for our expert, Cache Valley Prepper, as it felt like having to choose your favorite kid, but nevertheless

here's what we, and 22 other experts, came up with.

do you have the right knife?

FALLKNIVEN F1 PILOT

IT WAS DESIGNED TO BE THE MOST RELIABLE, SIMPLE AND VERSATILE KNIFE POSSIBLE.

BUCK HOODLUM

THE BUCK HOODLUM IS A WELL-BUILT KNIFE AND OFFERS GREAT DURABILITY FOR THE MONEY.

SOG SEAL PUP

THE BLADE IS QUITE THICK WHERE IT MEETS THE HANDLE, AND TAPERES TO A VERY SHARP POINT.

M.A.X.-1

IT WAS ORIGINALLY DESIGNED FOR FIREFIGHTERS AND RESCUE WORKERS SO IT'S VERY VERSATILE.

THE ODIN BY FALLKNIVEN

I CAN POINT OUT A MODEL THAT IS CLOSE TO MY PERFECT SURVIVAL KNIFE: THE ODIN BY FALLKNIVEN.

SURVIVE GSO-S1

THE FIT AND FEEL OF THIS KNIFE IS JUST AMAZING. THE STEEL IS EXTREMELY TOUGH AND HAS GREAT EDGE RETENTION.

SCHRADER SCHIFAS

IT HAS DONE A GREAT JOB AT CARVING TRAP TRIGGERS, SPLITTING WOOD AND CLEANING SMALL GAME.

LT WRIGHT GNS

IT FILLS MY HAND COMFORTABLY AND I'VE NEVER EXPERIENCED HOT SPOTS EVEN AFTER EXTENDED USAGE.

MORA KNIFE

FOR THE PAST TWENTY YEARS, I'VE USED THE SAME MORA AS THE SINGLE LONGEST BEASON BEING IT IS NEARBY.

THE MORA KNIFE IS VERY GOOD, SMALL, LIGHT, STRONG AND SHARP.

RANDALL #5

I WOULD OPT FOR THE RANDALL #5 BECAUSE OF ITS LARGER SIZE BUT IT ALSO MAKES A LITTLE RT-02 AS A BACKUP.

GERBER'S BEAR GRYLLS KNIFE

IT HAS A FIRE STARTER KIT BASED ON A SQUARE STIMBER NOTCH LOCATED IN THE BACK OF THE BLADE.

SWISS ARMY KNIFE

I GO WITH A SWISS ARMY STYLE POCKET KNIFE BECAUSE I CAN FIT IT IN MY POCKET EASILY.

COLD STEEL SRK

COLD STEEL SRK IS A FORMIDABLE WEAPON IN COMBAT, GOOD FOR STABBING, CUTTING AND SLICING.

MORA KNIFE (ORANGE)

ABOUT THAT BRIGHT ORANGE, IT EASIER TO SEE IF THE KNIFE IS DROPPED.

KUKRI KNIFE

YOU CAN USE IT FOR CUTTING THROUGH FAIRLY DENSE BUSH AND CHOPPING DOWN THICK LIMBS AND SAPLINGS.

BECKER/KABAR BK-2

IT HAS THE HEFT NEEDED TO CHOP, A SHORTER BLADE FOR FINE WORK, AND IT IS THICK ENOUGH TO PRE WITH WITHOUT BENDING.

GREAT FOR CUTTING AND CHOPPING, HOLDS AN EDGE, DURABLE.

SET OF KITCHEN KNIVES

PERSONALLY ANY WHOLE KIT WOULD BE IDEAL BECAUSE I CAN BREAK DOWN ANYTHING AND EVERYTHING WITH IT.

MORA BUSHCRAFT

I WOULDN'T EVER BE CAUGHT WITH ONLY ONE KNIFE FOR WILDERNESS SURVIVAL USE AS A KNIFE SYSTEM, INCLUDING THE MORA.

I CARRY IT WHEN GUIDING AND DEEM IT SUFFICIENT FOR A COUPLE OF DAYS IN A SURVIVAL SITUATION IN THE SMOKY MOUNTAINS.

GERBER STEADFAST FINE EDGE

IT IS LONG ENOUGH FOR JUST ABOUT ALL TASKS I MIGHT NEED IT FOR WITHOUT BEING TOO LARGE TO CARRY.
